OBJECTIVE

- Passionate and adaptable technology enthusiast with a strong foundation in programming, problem-solving, and system design. Eager to contribute to building scalable, efficient, and secure solutions while continuously learning and adapting to new domains. Thrive in challenging environments where clean code, data-driven insights, and innovation come together to deliver impactful results across diverse business needs.

EDUCATION

- **K S Institute of Technology, Bangalore (2022-2026)** - B.E. Computer Science & Engineering
CGPA : 8.1/10
- **Sri Chaitanya Techno School, Bangalore (2021-2022)**– 12th (CBSE)
Percentage : 76.6%

SKILLS

- Programming Language – Python, JAVA, JavaScript, SQL, HTML, CSS
- FrameWork – Django, Flask, FastAPI, React
- Tools/Platforms – Git, GitHub, Cursor, VSCode, SQL Developer, FireBase, Docker
- DataBase – MySQL, PostgreSQL, MongoDB

PROJECTS

- **InfoPulse** | [GitHub](#) | [Live](#)
 - Built an interactive dashboard aggregating 10,000+ live cryptocurrency price updates (Chart.js), AI-powered market analysis (Gemini API), and real-time global weather forecasts (OpenWeatherMap). Implemented a searchable news feed with category filtering using NewsAPI integration.
 - Designed searchable news feed with 5+ category filters, fetching 100+ daily articles via NewsAPI integration.
 - Designed a responsive UI with dynamic Vanta.js animated backgrounds, achieving 95% user satisfaction in usability tests.
 - Demonstrated expertise in multi-API integration, managing 3+ concurrent data streams, and state management for seamless data visualization.
- **TRIP PLANNER AI | CrewAI & OpenRouter** | [GitHub](#) | [Live](#)
 - Developed an intelligent multi-agent trip planning system using CrewAI framework with 4 specialized AI agents (Destination Researcher, Flight Booking Specialist, Itinerary Planner, Budget Analyst) orchestrated via LangChain. Integrated OpenRouter API (Mistral-7B) for LLM access, implemented real-time agent progress tracking with Streamlit, and built automated PDF export functionality with dynamic formatting. Deployed on HuggingFace Spaces and Streamlit.
- **ABHAYAM-IOT-WOMEN-SAFETY-DEVICE** | [GitHub](#)
 - Developed a compact IoT women's safety device using an ESP32 and A9G module that sends instant SOS alerts with live GPS location to emergency contacts. Designed for portability with a rechargeable battery, ensuring lowlatency communication for enhanced personal safety.

PUBLICATIONS

- [1] Mr. Krishna Gudi, Nagamahesh Kendole, Pranav B R, Puneeth Vemuri4, Revanth Raj P, "**A Survey on Multimodal Approaches for 3D Face Recognition in Occluded Environments**", International Journal of Advanced Research in Computer and Communication Engineering (IJARCCE), DOI: 10.17148/IJARCCE.2025.14655 | [Link](#)

HACKATHONS

- **Adobe India Hackathon** – [Round 1 - Online MCQ Assessment + Coding]
- **Hacker-Ring Hackathon** – organized by 0xDay
Developed an AI AgriiBot that uses a CNN for disease detection and IoT sensors for automated, precision farming.

CERTIFICATIONS

- Introduction to Generative AI Learning Path Specialization - Coursera | [Link](#)
- Introduction to Software Engineering - Coursera | [Link](#)
- Career Essentials in GitHub Professional Certificate - LinkedIn learning | [Link](#)
- Crash Course on Python - Coursera | [Link](#)
- Introduction to Computer Vision and Image Processing - Coursera | [Link](#)

EXPERIENCE

- **CodSoft** 15/12/2023 - 15/01/2024
Web Development Intern Completed a 4-week virtual internship in Web Development, contributing to multiple projects and receiving excellent performance remarks. Demonstrated strong technical skills and dedication, as recognized in the internship certificate.
